# How much per Year -for Shoes?

SHOE Service, like Salary, Investment, or Income, should be reckoned

Few people have ever considered this vital point in Shoe buying. The average pair of fine Shoes (\$4.00 to \$5.00 grade) will wear continuously about 1280 hours, before re-soling or repair are

That's about 3 Months continuous Wear, every day for 14 hours per day, - without wearing other Shoes.

. Few indeed are the fine Shoes that exceed this, when actual time of Wear is reckoned. And the \$3.50 shoe of the present cannot be expected to average it.

BUT, even if a \$3.50 pair did deliver that continuous 3 Months of average Wear, such Shoes would cost you \$14.04 per year, for pre-repair Wear.

Now compare this with the 1912 Regal

Shoe offer, which is—

-Six-Months Continuous Wear of Outsoles and Upper Leather (equal to 2560 Consecutive Hours), for \$4.50 per pair.

—Just 75 cents per Month (or \$9.00 per year), for high-grade, stylish "Regal Shoe"

That fixed minimum of Wear pledged to you in a legal "Bond" which goes with each pair, and is practically unconditional.

Style and Fit of these Shoes you can judge for yourself, before purchasing.

Term of Wear is clearly defined, and absolutely secured to you—in this Bond.

Why, then should you pay \$14.04 per year, for \$3.50 Shoe average Wear?

—When—

-When--You can have the "Last Word" in 1912 Fashion, Fit and Comfort, at \$9.00 PER YEAR, in the new and Ultra Stylish range of \$4.50 Regal "Six-Month" Shoes.
